Joyson Safety Systems Launches New, More Robust Company Website

- **Joyson Safety Systems' website offers added benefits for potential suppliers and future talent**
- **Website offers improved functionality and easy navigation for all audiences**
- **Additional language versions being rolled out over the coming months**

Auburn Hills, MI USA

Joyson Safety Systems (JSS), a leading global supplier of mobility safety systems such as airbags, seatbelts, steering wheels, and electronic safety systems, has launched a new company website that offers improved functionality and easy navigation with additional content for multiple audiences, providing greater visibility for the company.

"The goal of the new JSS website was to not only highlight our products and technologies but also to provide an engaging experience with high-quality functionality to all visitors," said Guido Durrer, president and CEO, Joyson Safety Systems.

The new JSS website highlights the company's products and technologies, offers application information to potential suppliers and features HR functions for future talent.

Additional language versions of the site will roll out over the coming months, providing for global reach into all markets where JSS has facilities and employees.
